

Payments Connect easily allows your customers and employees to process credit card and ACH payments within the Spring Point Suite

Payments Connect powered by Spring Point Solutions connects Service First Processing to the Spring Point Suite

AR Connect

- Customers are able to pay invoices through the customer web portal
- Allow your customers to view and download their invoices
- Customers are able to pay all, pay individually, or partially pay any invoice selected
- Customer payments are automatically created within MotorBase, eliminating double entry
- Credit card transactions appear in real-time
- Refunds are able to be issued within the portal
- Don't have an invoice? Apply a deposit

AP Connect

- Simplify the process of paying invoices with no more printing, separating, matching, or stapling of checks and stubs
- Eliminate the need for stuffing, sealing, stamping, and mailing checks
- With AP Connect, simply click and send to Service First Processing, and they'll handle the rest
- Replace products like positive pay by using secure protocols
